

October 2021

Highlights and Community Events

Coping With Side Effects

October 5, 12, 19, 26 at 3:30 pm

Join us for a weekly, four-part series addressing various concerns that arise during and after cancer treatment. Topics include Lymphedema, Healthy Cooking, Intimacy, and Bone Health. For more information, please contact info@cancercarepoint.org.

Healing the Mind and Soul: Affirmations for Resilience and Empowerment

Presenter: Cynthia McDonald, Ph.D.

October 8th, at 1pm

Trauma research shows that positive self-talk in the form of affirmations supports the development of resilience. Join us as we: learn about resilience; learn how positive psychology can shift mental habits, and how choosing positivity is different from hiding in the denial of positivity. Together we will experience hypnosis combined with positive affirmations to shift the negative mental cycle of the stress response and promote resilience and empowerment.

Healing Expressions – Tools to Embrace the Unknown

Facilitator: Lacey Morris, MA, LMFT

October 13, 20, 27th at 10am

Change can bring up all types of fears. However, if you're willing to keep breathing and stay with this feeling, there is also a place within the unknown that is exhilarating, fresh, and filled with potential and rebirth. If you can move out of "paralysis by analysis," living in the unknown can be an incredible opportunity for spiritual, personal, and professional growth.

Please come explore some tools in the month of October that can help strengthen your trust in the unknown. Please bring a journal and some art materials each week.

Monday	Tuesday	Wednesday	Thursday	Friday	Sat/Sun
